

IDEATION PHASE

Brainstorm & Idea Prioritization

Date	10 September 2026
Team ID	Individual
Name	Mohammad Naheed Jahan
Project Name	Employee Raise Issue – Record Producer & Service Portal Integration
Maximum Marks	4 Marks

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. For this project, the brainstorming activity focuses on identifying practical ideas for an employee issue reporting and management solution using ServiceNow.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Selected Problem Statement

Employees need a simple and standardized way to raise workplace or technical issues because existing issue-reporting processes can involve manual steps, inconsistent information, and difficulty in tracking requests.

How Might We Statement

How might we provide employees with an easy-to-use portal to report workplace or technical issues with standardized information and automatically create manageable ServiceNow records?

Project Focus

Develop a ServiceNow-based employee issue management solution that provides a centralized portal, structured issue submission, controlled data entry, and organized issue tracking.

Step-2: Brainstorm, Idea Listing and Grouping

The following ideas were generated and grouped according to the main activities involved in the employee issue management process.

Issue Submission

- Employee Issue Form
- Record Producer
- Standardized Fields
- Mandatory Fields
- Issue Description
- Automatic Issue Number

Portal & User Experience

- Employee Service Portal
- Custom Portal Page
- Raise Issue Button
- Custom Widgets
- Simple Navigation
- Popular Topics Widget

Data Validation

- UI Policies
- Dependent Category/Subcategory
- Field Visibility
- Read-only Issue Number
- Controlled Input

Issue Management

- Issue Status Tracking
- Assignment Group
- Priority
- Requester Details
- Issue History
- State Management

Automation

- Automatic Record Creation
- Automated Routing
- Email Notifications
- SLA Tracking
- Escalation

Reporting & Future Enhancements

- Issue Dashboard
- Issue Statistics
- Category Reports
- AI Issue Classification
- Chatbot Support
- Advanced Analytics

Step-3: Idea Prioritization

The ideas are prioritized based on their importance to the project and their feasibility within a ServiceNow Personal Developer Instance.

Idea	Importance	Feasibility	Priority
Employee Issue Form / Record Producer	High	High	1
Service Portal & Custom Widgets	High	High	2
UI Policies & Dependent Choices	High	High	3
Issue Status & Management	High	High	4
Assignment Group / Routing	High	Medium	5
Email Notifications	Medium	High	6
Issue Dashboard / Analytics	Medium	Medium	7
AI Classification / Chatbot	Low	Medium	8

Final Selected Idea

Develop a ServiceNow Employee Issue Management solution using an Employee Center portal, Record Producer, custom widgets, standardized fields, UI Policies, dependent choices, and structured issue tracking.
